KUNZ BTS-E proves capability for A380-brakes

KUNZ offers three versions of the **KUNZ BTS Brake Test Stand** for the hydraulic pressure check of all aircraft brakes.

For Airbus A380 brakes KUNZ has developed the **KUNZ BTS-E Brake Test Stand** with 7500 PSI. At the Wheel & Brake Shops of Mazeres Aero Equipment (France) and Emirates Airlines (UAE) the **BTS** is used for the full operational test of Airbus A380 brakes with complete satisfaction (please refer to the Reference Letters below).

Subject: Hydraulic Test Bench BTS-E 7500 PSI

Dear Sir,

We are currently operating A380 brakes hydraulic tests for maintenance operation and release to service with BTS-E 7500 PSI.

We bought this equipment two years ago and until now we are very satisfied of its functionality, and reliability.

Yours sincerely,

Stephane MARTY
CEO Manager
