Germany

Object : Business Co-operation

Dear Sirs,

We wish to confirm that the recovery equipment delivered in 1994 is performing very well.

We are very satisfied with the quality and durability of your products.

The main purpose of this letter is to express our appreciation for the excellent performance of the aircraft recovery training at the airport in Hamburg, Germany.

We have sent three times different crews and we are very pleased about the positive result for every team.

We are looking forward to our future co-operation.

Yours sincerely,

Carlo Subioli

(Head of Ground Equipment Maintenance)

AEROPORTI DI ROMA
